Add to your CV

"Junior collaborator was able to cite it as valuable work done for the university" FASS

Benefits for the research community

& faster dissemination

Greater discoverability

"A model we open-sourced has been downloaded 13k+ times" FEPS

Equity - access to

teaching

Benefits

research for everyone

"Having the most downloaded paper of all times in a top journal. The focus is on developing countries so no wonder there was a lot of interest from scholars and practitioners that cannot afford to pay for articles" FASS

SHOWCASING SURREY OPEN RESEARCH

Surrey Open Research case study authors have experienced many benefits and opportunities from engaging in Open Research. Read about where your Open Research journey could take you.

Emma Henderson, Research Fellow in Research Culture & Open Research

Reduces waste

& inefficiencies —

"Our open access research summaries received a lot of attention from teachers" FHMS

> Public engagement & citizen science

> >

"Being able to share and compare work using the same dataset to help advance work" FHMS

Advances research

Benefits for society

Increases

innovation

5

Increases trust

in research

"Colleagues have used our open resources for a new grant focused on Blood Cancer" FHMS

Increases use

and re-use

"I have been approached by the World Bank to work on a flagship report, based on my open access research" FASS

Note: Quotes are responses from University of Surrey researchers when asked about opportunities they have experienced as a result of engaging in Open Research practices. Some quotes have been abridged to fit the size of the poster.
