

Project Title: Virtual consultations for people with learning disabilities, their families and healthcare providers.

1. My name is Freda Mold. I am part of a research team at the University of Surrey.

2. We have been funded by the Applied Research Collaboration (ARC-KSS) to work on a project.

3. The project involves talking to people with learning disabilities, their family, health care staff (doctors/nurses) and community teams.

4. We would like to ask you how you feel about talking to doctors/nurses and community teams using your phone or your computer.

5. This includes people who like or dislike using the telephone, video call or email to talk to health care staff and community teams.

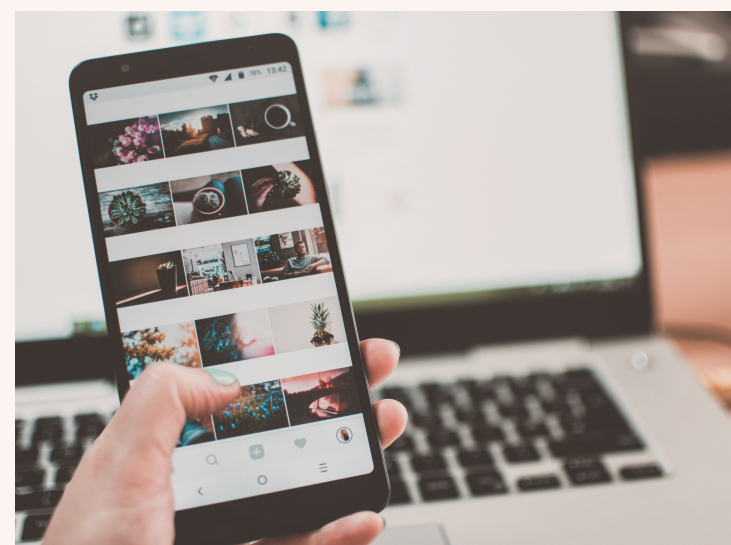

6. Listening to your experiences/views will help us improve how care is delivered for people with learning disabilities, families and health care staff and community teams.

7. If you would like to take part in this project please telephone

Treena Parsons
on **01483 684595**
or email
